A SELECTION OF  
**Client Testimonials**

*“Madame Sophie’s delicately curious presence starts from the moment of greeting and continues through the most precise and unexpected juxtapositions of color and texture. I took pictures of the combinations we discovered together so as to keep up with her creative tosses. Be prepared for humor, profound learning and applications to all your life.”*

*“Madame Sophie masterfully supported me in letting go of clothes that did not reflect my beauty and supported me in creating a wardrobe that truly reflects my essence. She was a master in helping me see how different pieces could be worn together to create new outfits. So while I had fewer clothes, I had more outfits to choose from! I now love to be in my closet where I feel so alive as I select from colors, styles and materials that inspire me!”*

*“I was amazed at the experience of feeling like I had a new wardrobe, without even buying any new clothes. Mme. Sophie is a genius at combining elements of accessories, clothing and shoes in ways I had not even thought of, and I consider myself to be pretty fashion savvy. Mme Sophie not only addressed my fashion esthetic but also my underlying emotional attachments to my past and helped me get current with the way I adorn myself. Mme Sophie was a great support, not only in designing new outfits, but also in reducing clutter and streamlining my entire wardrobe/closets. She made what could have been a grueling process, a totally fun and enjoyable one. Merci, Madame Sophie!”*

*“Shopping with Madame Sophie was like no other experience I’d had before. Finally, I had a trusted advisor there with me, acting as a mirror for both the real me and what I most aspire to become. I reliably get compliments when I wear what we picked out that day – colors and fashions that have nothing to do with trends, but have everything to do with me.”*
